## INDEPENDENT AUDITORS' REPORT

Members of the Board of Directors  
Arista Metropolitan District

### Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Arista Metropolitan District (the District) as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Arista Metropolitan District, as of December 31, 2024, and the respective changes in financial position and the budgetary comparison for the General Fund and Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Arista Metropolitan District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Arista Metropolitan District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Arista Metropolitan District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Arista Metropolitan District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### **Required Supplementary Information**

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

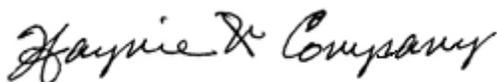

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Arista Metropolitan District's basic financial statements. The supplementary information section is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES  
IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
YEAR ENDED DECEMBER 31, 2024**

Net Change in Fund Balances - Total Governmental Funds \$ (12,939,455)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful life of the asset. Therefore, this is the amount of capital outlay, depreciation and dedication of capital assets to other governments, in the current period.

|                      |           |
|----------------------|-----------|
| Capital Outlay       | 2,996,494 |
| Depreciation Expense | (266,598) |

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of government funds. Neither transaction, however, has any effect on net position.

|                         |           |
|-------------------------|-----------|
| Bond Principal          | 705,000   |
| Repay Developer Advance | 7,957,489 |

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

**ARISTA METROPOLITAN DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
DECEMBER 31, 2024**

**NOTE 1 DEFINITION OF REPORTING ENTITY**

Arista Metropolitan District (the District), a quasi-municipal corporation and political subdivision of the state of Colorado, was organized by order and decree of the District Court for the city and County of Broomfield (the City) on December 13, 2002 and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised statutes). The District operates under a Service Plan approved by the City on August 28, 2001, and as modified on September 10, 2002, and on August 9, 2005. The District was formed as the Park 36 Metropolitan District. On August 15, 2005, the name of the District was changed to Arista Metropolitan District.

The District was established to provide financing for the design, acquisition, installation, construction and completion of public improvements and services, including water, sanitation, street, safety protection, park and recreation, transportation, television relay and translation and mosquito control improvements and services. The operation and maintenance of most District services and facilities is anticipated to be provided by other entities and not by the District. The District is authorized to operate and maintain any improvements not otherwise conveyed to the City or other entities.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens, and fiscal dependency.

The District has no employees, and all operations and administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The more significant accounting policies of the District are described as follows:

**Government-Wide and Fund Financial Statements**

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by property taxes.

**ARISTA METROPOLITAN DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
DECEMBER 31, 2024**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Government-Wide and Fund Financial Statements (Continued)**

The statement of net position reports all financial and capital resources of the District. The difference between the sum of assets and deferred outflows and the sum of liabilities and deferred inflows is reported as net position.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Redemption of bonds are recorded as a reduction in liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes and specific ownership taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. The District determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation is due.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Special Revenue Fund – Parking Structure accounts for revenues earned and expenditures incurred in connection with the operation and maintenance of the parking structure.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Measurement Focus, Basis of Accounting and Financial Statement Presentation  
(Continued)**

The Debt Service Fund – Series 2023A and 2023B accounts for the resources accumulated and payments made for principal, interest and other costs related to the Series 2023A and 2023B Bonds.

The Debt Service Fund – 2020A accounts for the resources accumulated and payments made for principal, interest and other costs related to the Series 2020A Bonds.

The Debt Service Fund – 2020B accounts for the resources accumulated and payments made for principal, interest and other costs related to the Series 2020B Bonds.

The Capital Projects Fund accounts for financial resources to be used for the acquisition or construction of major capital improvements within the District.

**Budgets**

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures and other financing uses level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

**Pooled Cash and Investments**

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

**Property Taxes**

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or, if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

NOTES TO BASIC FINANCIAL STATEMENTS  
DECEMBER 31, 2024**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Capital Assets**

Capital assets, which include property and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Except for the parking structure, Arista Park and certain street signage, all assets of the District will be conveyed to other governmental entities. Capital assets which are anticipated to be conveyed to other governmental entities are recorded as construction in progress and are not included in the calculation of net investment in capital assets, a component of the District's net position.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Depreciation expenses has been computed using the straight-line method over the following estimated economic useful lives:

|                                 |          |
|---------------------------------|----------|
| Parking Structure               | 75 Years |
| Parking Structure Improvements: |          |
| Security Cameras                | 5 Years  |
| Sump Pumps                      | 10 Years |

**Original Issue Premium and Discount**

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts received on debt issuances are reported as other financing sources.

**Cost of Refunding**

In the government-wide financial statements, the deferred cost of bond refunding is being amortized using the interest method over the life of the new bonds. The amortization amount is a component of interest expense and the unamortized deferred cost is reflected as a deferred outflow of resources.

**ARISTA METROPOLITAN DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
DECEMBER 31, 2024**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Deferred Inflow/Outflow of Resources**

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditures) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, cost of refunding, is deferred and recognized as an outflow of resources in the period that the amount is incurred.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, deferred property tax revenue, is deferred and recognized as an inflow of resources in the period that the amount becomes available.

**Equity**

**Net Position**

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

In the government-wide financial statements, fund equity is classified as net position. Net position may be classified into three components: net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

*Net Investment in Capital Assets* – This component of net position consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any debt that is attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in this component.

*Restricted* – This component of net position consists of assets that are restricted for use as imposed by external parties such as creditors, grantors or contributors, or as imposed by laws or regulations of other governments, or as imposed through constitutional provisions or enabling legislation.

*Unrestricted* – The component of net position that does not meet the definitions above.

NOTES TO BASIC FINANCIAL STATEMENTS  
DECEMBER 31, 2024**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Equity (Continued)**

**Fund Balance**

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

*Nonspendable Fund Balance* – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

*Restricted Fund Balance* – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

*Committed Fund Balance* – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

*Assigned Fund Balance* – The portion of fund balance that is constrained by the government's intent to be used for specific purposes but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

*Unassigned Fund Balance* – The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balances is available for use when an expenditure is incurred, it is the District's practice to use the most restrictive classification first.

**ARISTA METROPOLITAN DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
DECEMBER 31, 2024**

**NOTE 3 CASH AND INVESTMENTS**

Cash and investments as of December 31, 2024, are classified in the accompanying financial statements as follows:

Statement of Net Position:

|                                   |                            |
|-----------------------------------|----------------------------|
| Cash and Investments              | \$ 470,391                 |
| Cash and Investments - Restricted | <u>6,330,996</u>           |
| Total Cash and Investments        | <u><u>\$ 6,801,387</u></u> |

Cash and investments as of December 31, 2024, consist of the following:

|                                      |                            |
|--------------------------------------|----------------------------|
| Deposits with Financial Institutions | \$ 48,092                  |
| Investments                          | <u>6,753,295</u>           |
| Total Cash and Investments           | <u><u>\$ 6,801,387</u></u> |

**Deposits with Financial Institutions**

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2024, the District's cash deposits had a bank and carrying balance of \$48,092.

**Investments**

The District has adopted a formal investment policy which follows state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (\*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

**Fair Value Measurement and Application**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments not measured at fair value and not categorized include governmental money market funds (PFM Funds Governmental Select series), money market funds (generally held by Bank Trust Departments in their role as paying agent or trustee), CSAFE (which are recorded at amortized cost), and COLOTRUST (which are recorded at net asset value).

**CSAFE**

The District invested in the Colorado Surplus Asset Fund Trust (CSAFE) (the Trust), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust currently offers two portfolios – CSAFE CASH FUND and CSAFE CORE.

**Optional Redemption**

The 2023A Senior Bonds are subject to redemption prior to maturity, at the option of the District, on December 1, 2033, and on any date thereafter, upon payment of par, accrued interest without redemption premium.

**2023A Senior Pledged Revenue**

The 2023A Senior Bonds are secured by and payable solely from 2023A Senior Pledged Revenue, net of any costs of collection or any property tax rebates or abatements authorized by or on behalf of the City, which includes: (i) the Pledged Sales and Use Tax Reimbursement Agreement Revenues; (ii) the property taxes generated by the imposition of the 2023A Senior Required Mill Levy; (iii) the portion of the Specific Ownership Tax which is collected as a result of imposition of the 2023A Senior Required Mill Levy; (iv) Payment in Lieu of Taxes (PILOT) Revenues; and (v) any other legally available moneys that the District determines, in its absolute discretion, to credit to the 2023A Senior Bond Fund.

**Sales and Use Tax Reimbursement Agreement Revenues**

Pursuant to the Sales and Use Tax Reimbursement Agreement between the City and the District dated August 1, 2005, the City pledges certain of its sales tax and use tax revenues and service expansion fees to the District (the SUTRA Revenues), and the District pledges certain revenues received thereunder to the payment of the 2023A Senior Bonds. Pledged Sales and Use Tax Reimbursement Agreement Revenues are the SUTRA Revenues less the Available Sales Tax from the RTD Parcel and the Available Sales Tax from any associated land parcel with respect to the Fry's Allocation, if and when the Fry's Allocation is used for eligible retailers within the District which enter into incentive agreements approved by the City and County.

The portion of such revenues which constitute SUTRA Revenues within the meaning of the 2023A Senior Indenture consist of: (i) the Available Sales Tax, including any investment income thereon; excluding, however, the Available Sales Tax derived from the RTD Parcel and the Fry Allocation; (ii) 50% of a 3.50% Use Tax levied on the construction of commercial buildings, residential buildings, and construction materials within the boundaries of the District; and (iii) 50% of the Service Expansion Fees when collected by the City.

The revenue sharing obligation of the City expires upon the earlier to occur of: (a) the date on which the City Bond has been refunded and the proceeds of the Refunding Bonds (as defined in the Sales and Use Tax Reimbursement Agreement) have been applied to reduce or defease the principal amount of the District Bonds (as defined in the Sales and Use Tax Reimbursement Agreement); or (b) November 30, 2028; after which time the debt service on the 2018 Bonds is expected to be paid from other components of Pledged Revenue.

City Bond

The City Bond means the City and County of Broomfield, Colorado, Sales and Use Tax Revenue Bond (Park 36 Metropolitan District), Series 2005, issued by the City to the District to evidence the City's obligations to the District under the Sales and Use Tax Reimbursement Agreement. The City Bond bears interest at the rate of 6.75% borne by the District's previously refunded Special Revenue Bonds, Series 2005, issued in the original aggregate principal amount of \$31,175,000 ("Prior Series 2005 Bonds" which were refunded by the District's 2015 Loan) and matures on November 30, 2028. The City Bond has the same dated date as the Prior Series 2005 Bonds, and interest accrues and compounds semiannually on May 15 and November 15 until paid. No amount of SUTRA Revenues under the Sales and Use Tax Reimbursement Agreement may be paid in excess of the amounts due under the City Bond.

Available Sales Tax

Available Sales Tax is generally defined as 45% of the revenues derived from a 3.50% Net Sales Tax imposed on and collected by the City on transactions that are subject to the City's sales tax and that occur between the Effective Date and the Termination Date within the boundaries of the District, subject to the terms of the District's Service Plan. While the City's total sales tax rate is higher, only 3.50% of such sales tax is available to satisfy the City's obligations under the Sales and Use Tax Reimbursement Agreement.

Use Tax

The second component of SUTRA Revenues is 50% of the revenues derived from the use tax collected by the City within the boundaries of the District. The City imposes a 4.15% use tax on the purchase price paid or charged on the sale or purchase of vehicles and building and construction materials when purchased or sold at retail, and used, stored, or consumed in the City. However, only use tax received from a use tax rate of 3.50% is subject to the Sales and Use Tax Reimbursement Agreement.

Service Expansion Fees

The third component of SUTRA Revenues is 50% of the Service Expansion Fees (the SEF Fees) imposed on new residential construction collected by the City on property within the boundaries of the District. The amount of the SEF Fee is \$1.00 per each square foot of total floor area for which a building permit has been issued by the City. Garages and unfinished basements on new residential construction, garage conversions or additions to existing dwellings, assisted care facilities, nursing homes senior housing facilities, and hospices are exempt from the SEF Fee.

**2023A Senior Reserve Fund**

The 2023A Senior Bonds are further secured by the Reserve Fund in the Required Reserve Amount of \$4,237,475, which is funded through the issuance of the Reserve Policy and a portion of the Bonds' proceeds of \$2,118,738. The Reserve Policy and the proceeds of the Bonds are each in the amount of 50% of the Required Reserve. The Reserve Fund is to be maintained in the amount of the Required Reserve so long as the Bonds are outstanding.

The District had restricted net position as of December 31, 2024, as follows:

|                               | Governmental<br>Activities |
|-------------------------------|----------------------------|
| Restricted Net Position:      |                            |
| Emergencies                   | \$ 42,200                  |

| Total Restricted Net Position | \$ 1,383,648               |

**NOTE 9 INTERGOVERNMENTAL AND RELEVANT AGREEMENTS**

**Sales and Use Tax Reimbursement Agreement (SUTRA)**

On August 1, 2005, the District entered into a Sales and Use Tax Reimbursement Agreement with the City. Pursuant to the Agreement, the City agrees to pledge the following revenue to the District for the repayment of the Series 2018A & B Bonds: (i) 45% of the revenues derived from a 3.50% City sales tax collected within the boundaries of the District, less sales taxes collected and paid by a certain major retailer and retailers on certain RTD parcels; (ii) 50% of 3.50% of a total 4.15% Use Tax collected by the City within the boundaries of the District; and (iii) 50% of the Service Expansion Fees imposed on new residential construction, equal to \$1.00 per each square foot of total floor area for which a building permit has been issued, collected by the City on property within the boundaries of the District.

The City's revenue sharing obligation expires on earlier of November 28, 2028, or upon final repayment of the City Bond.

**City Bond**

On June 28, 2005, the City authorized the issuance of the City and County of Broomfield, Colorado, Sales and Use Tax Revenue Bond (Park 36 Metropolitan District), Series 2005, in a principal amount not to exceed \$29,361,000 (the City Bond). The purpose of the City Bond is to evidence the City's obligation to the District under the Sales and Use Tax Reimbursement Agreement. The City Bond is payable from SUTRA Revenues paid to the District and bears interest at the rate of the Series 2005 Bonds, which is 6.75%, compounded semiannually on May 15 and November 15. The City Bond matures on November 30, 2028. No amount of SUTRA Revenue will be paid to the District in excess of the amounts due under the City Bond.

**NOTE 9 INTERGOVERNMENTAL AND RELEVANT AGREEMENTS (CONTINUED)**

**Cooperation Agreement**

The District entered into a Cooperation agreement with Broomfield Urban Renewal Authority (BURA) on September 13, 2005, as amended on July 24, 2018 in connection with the Series 2018A and 2018B Bonds. The District is located in an urban renewal plan area established by BURA. The urban renewal plan allocates all property taxes collected from assessed value above a base amount of \$2,051,480 (Base AV) to BURA; however, BURA and the District have entered into a Cooperation Agreement in which BURA agrees to transfer to the District any revenues received by BURA from the District's mill levies for operations and debt service. Between property taxes collected from the Base AV and property tax revenues received pursuant to the Cooperation Agreement, the District expects to collect all of the property tax revenues raised from the District's mill levies. The urban renewal plan terminates in 2030, and the District will collect its property tax revenues directly in all future years.

**Parking Structure Development and Operation Agreement**

On June 2, 2006, the District entered into a Parking Structure Development and Operation Agreement with Park 36 Investment, LLC (the Developer) and Regional Transportation District (RTD) to define the mutual understanding and agreement of the parties concerning the design, construction, financing, maintenance, and use of the Parking Structure. The Parking Structure, a multi-level garage with the capacity for parking approximately 1,500 vehicles, is owned by the District. Based on the agreement, RTD is entitled to the exclusive use of 200 spaces, the District has the exclusive use of 560 spaces, and the remaining 740 spaces are shared and are available to RTD and District on a first-come-first-served-basis. The agreement stipulates that RTD shares 45.47% in the operation and maintenance expenses of the Parking Structure using the same percentage allocation discussed above. Following Broomfield Urban Renewal Authority's assumption of the role of Operator and Manager of the Parking Structure in August 2009, an agreement was executed to include the tenant's association of Arista Place in the allocation of annual operational costs of the Parking Structure. The tenant's association is contributing 11.69% of the annual operational costs, reducing the District's allocation to 42.84%.

The District and Broomfield Sports and Entertainment, LLC (BSE) entered into a Parking Structure Management and Maintenance Agreement dated as of June 27, 2006, as amended on March 11, 2008 (the Parking Structure Management Agreement), pursuant to which the District engaged BSE to serve as the manager of the Parking Structure. Pursuant to the Assignment, Assumption and Consent Agreement, dated August 25, 2009, among BSE, BURA and the District (the Assigned Agreement), all of BSE's rights and responsibilities under the Parking Structure Management Agreement were assigned to and assumed by BURA. Pursuant to the Parking Structure Management Agreement, BURA is responsible for, among other things, coordinating the daily operations and maintenance of the Parking Structure and for paying all of the maintenance and capital replacement costs relating to the Parking Structure. Under the Assigned Agreement, the District allocated its rights to spaces in the Parking Structure to the BURA to the maximum extent available under the Assigned Agreement to utilize space in the Parking Structure for Event Center purposes during the time of all scheduled events at the Event Center and such reasonable time periods before and after such events. During the time that no events are scheduled at the Event Center, the District and BURA shall agree on the allocation of spaces as provided in the Assigned Agreement.

**NOTE 10 RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (the Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers' compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property and public officials' liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

**NOTE 11 TAX, SPENDING, AND DEBT LIMITATIONS**

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations which apply to the state of Colorado and all local governments, except Enterprises.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions.

Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or benefit increases.

On November 5, 2002 and November 1, 2005, a majority of the District's electors authorized the District to increase property taxes \$1,000,000 and \$5,000,000, respectively, annually, without limitation to rate, to pay the District's operations and maintenance costs. Additionally, on November 5, 2002, the District's voters authorized the District to collect, retain and spend all revenue in excess of TABOR spending, revenue raising or other limitations.

The District's management has taken such steps as it believes necessary to comply with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.
